Tours for Restoration Advisory Board (RAB) Members

We've arranged to provide a tour of the various cleanup sites at the former Williams AFB for RAB members on Friday, October 3. We are tentatively planning on offering two tour times, at 8:00 am and 4:00 pm. Please RSVP to Amber Cargile as soon as possible so we can provide adequate transportation for the tour. Amber can be reached at acargile@qwest.net or (623) 551-4163.

Williams 10th Anniversary Open House

Williams Gateway Airport is hosting a celebration marking the 10th anniversary of the redevelopment of Williams AFB. An open house is scheduled for Saturday, October 4, from 9:00 a.m. until 1:00 p.m. Many of the organizations that now operate on the former base will be participating, including the Air Force, which will have a booth with information about environmental restoration activities at Williams. For more information, visit the Web site at <http://www.flywga.org/10thAnniversary/10thanniversary.htm> or call Brian Sexton, Williams Gateway Airport community relations coordinator, at (480) 988-7618.

E-mail Contact List

An overwhelming number of RAB members have indicated that they prefer to stay in contact electronically. We're researching development of a Web site where we can post information for RAB members. Additionally, we've developed an e-mail contact list, which you should have received electronically in conjunction with this newsletter. If you didn't receive a copy, please e-mail Amber Cargile at acargile@qwest.net to ensure you are on our distribution list.

RAB Parking

Arizona State University (ASU) East has started charging for parking on campus. We are working with ASU to ensure that RAB members do not have to pay to park for RAB meetings. There is a visitors' parking lot just west of the Student Union where visitors may currently park for free. Also, paid parking is not enforced in the other lots after 7:00 p.m. For the November 4 meeting, we suggest you park in the visitors' parking lot if possible. We've also notified ASU in writing that RAB members will be arriving that evening starting at 6:30 p.m. to avoid any parking/ticketing issues.

For More Information

Many of you asked for more specific technical information about some of the cleanup sites, as well as more information on the chemicals of concern at Williams. Much of this information is available online and at the information repository at the ASU East Library. We've developed a
